TERMS OF REFERENCE FOR REVIEW OF CLIMATE CHANGE STRATEGY

FOR WINNIE MADIKIZELA -MANDELA LOCAL MUNICIPALITY

1. INTRODUCTION

Winnie Madikizela -Mandela Local Municipality endorsed its first Climate Change Strategy in 2015 which included climate actions, for both climate change mitigation and climate change adaptation for the municipality. Climate change is intricately linked to almost all facets of our society, particularly socio-economic progression as resources such as water, feedstock in form on food, fibre, biodiversity; amongst others determine the production potential of many sectors of the economy, which in turn affect human development aspirations. Due to the intricate link between climate change adaptation and human development, various role players - the three levels of government, i.e. national, provincial, and local, civil society, and private sector continue to build the country's resilience to climate change, although operating without a common reference point, and consideration of cross-sectoral implications on resources to support the future we want. The Mbizana Climate Change Strategy acts as a common reference point for climate change adaptation efforts in the municipality, and provides a platform upon which municipal climate change adaptation objectives for Mbizana can be articulated so as to provide overarching guidance to all sectors. The strategy help gauge the degree to which development initiatives at different levels of government and business integrate and reflect critical climate change adaptation, as such guides stronger coherence and coordination on climate change adaptation activities between different institutions and levels of government, particularly with regards to planning, implementation and reporting. The strategy is the main driver in achieving national obligations on matters of climate change.

2. PURPOSE AND OBJECTIVES

The current strategy was drafted with a 5 year timeframe of implementation in 2015 and therefore needs to be reviewed after the 5 years has passed. The municipality also identified gaps within the strategy during implementation from 2015 to date and it is anticipated that the review will address the identified gaps. The main objective of reviewing an Climate Change Strategy for Winnie Madikizela -Mandela Local Municipality is to integrate climate change strategy within, and where possible, with services of the municipalities, in order to:

- Enable the municipality to act with a better understanding by enhancing their supporting policy, planning and data infrastructure;
- To introduce the element of risk caused by climate variability.
- Transform the built environment function in our town, in particular by enabling effective strategies and systems for addressing spatial planning and land use, sustainable human settlements, and public transport; and
- Deal decisively with key vulnerabilities facing the municipality, in particular around the issues of natural resources, municipal finances, human capacity, and socio-political stability
- The review will monitor and be informed by developments in international climate policy, and include energy and air quality
- Ensure adaptation to climate change, through provision of a local climate network involving a suite of communities of practice, workshops, pilot projects and technical assistance.
- Ensure the rural livelihood which is highly affected by the climate change is adapting to improved practices that promote environmental livelihood.
- Ensure that the polluter pays principle as one of the key NEMA principles take effect as the health of rural livelihoods is at stake.
- Prioritizing infrastructure programmes which include sustainable land management planning, i.e. greening of schools.
- Organize the provision of knowledge support and advisory services to governments and other stakeholders as required.

- Ensure coordination and collaboration with other relevant networks and initiatives regionally and provincially, and build partnerships with key regional and national actors working on adaptation.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;

 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and

 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
