PART 1 – IN-YEAR REPORT

1. Executive Summary

The Budget and Treasury Office has a responsibility of reporting on the performance of the municipality against its approved budget. This must also consider the service delivery performance of the municipality, indicating remedial actions where variances have been identified.

Section 52(d) of the Municipal Finance Management Act No 56 of 2003 requires that a quarterly report must be prepared and tabled to council within 30 days of the end of the quarter. The information as contained in this report responds specifically to that, but also provides the council with enough information to play the oversight role, whilst providing the required direction where it is needed.

The municipality is currently experiencing huge pressure due to the demands from communities for construction of access roads, maintenance of existing roads, water provision and decent housing. Although significant strides have been made in ensuring that the backlogs are addressed, there is still significant ground to cover and this requires significant financial resources from the municipality. This, places a lot of pressure on the resources for all service delivery and as such, a delicate balancing act must be carried out to ensure that all service delivery requirements are met.

All departments have prepared their quarterly performance reports relating to service delivery and other items. This has then been submitted to the Internal Audit Unit for verification and assessment of attached portfolio of evidence. This gives the information reported more credibility, and where inadequate evidence is provided, it is corrected.

1.1 The Political Oversight

The Budget and Treasury Office standing committee is composed of the honourable councillors indicated below with their respective responsibilities within the department as follows:-

- | | |
|-----------------------|------------------|
| • Cllr N. Madikizela | Chairperson |
| • Cllr A. Diya | Committee Whip |
| • Cllr. N. Cengimbo | Committee Member |
| • Cllr. X. Bhabhazela | Committee Member |
| • Cllr S. Nomvalo | Committee Member |
| • Cllr S. Jayiya | Committee Member |
| • Cllr L. Silangwe | Committee Member |
| • Cllr P. Siramza | Committee Member |

1.2 Change of Political Oversight Structures

During the month of November 2021, local government elections were held and declared. This resulted to the end of the council term and a start of the new council term of office for the next five years. This also then automatically resulted in the change of oversight structures from the old Budget and Treasury standing committee that was composed as follows:

- | | |
|----------------------------|------------------------------|
| • Cllr L. Makholosa | Chairperson |
| • Cllr M. Qumba | Supply Chain Management |
| • Cllr. N Madikizela | Budgeting & Reporting |
| • Cllr. N. Giyama-Bongwana | Budgeting & Reporting |
| • Cllr N. Sipatala | Supply Chain Management |
| • Cllr M. Dlamini | Assets and Stores Management |
| • Cllr N. Bengu | Revenue and Expenditure |

2. Administration

The municipality has been implementing mSCOA with its annual updates like all municipalities in the country as a business reform since its introduction from 1 July 2017. This was introduced to address among other things ensuring standardisation of treatment of transactions and reporting across all municipalities, to encourage proper planning and put controls in terms of revenue and expenditure management. Introduction of new and improved versions of the mSCOA chart has proven to present problems that sometimes make it impossible to operate normally requiring some extra effort to be put into the operations of the municipality to fulfil its service delivery mandate.

3. Staff turnover

During the 2020/21 budget processes, the council approved creation and funding of the Assets and Stores Manager position which was then added to the approved organisational structure of the institution. Job descriptions and requests to start recruitment processes were submitted to the office of the Municipal Manager for approval. The advertising process was concluded during the month of March 2021 as expected. Shortlisting and interviews were expected to be concluded by 30 April 2021 to allow the department an opportunity to have this manager commence with duties before the end of the financial year. This unfortunately was not the case as the shortlisting did not take place during the month of April but during the month of May 2021 with all other processes concluded before the end of May 2021. There was hope that the successful candidate would commence duties by 1 July 2021 but by the end of June 2021 the appointment had not been concluded due to the delays from the SAPS security clearances. During the month of July 2021, the Accounting Officer with the advice from Legal Services was advised to issue pending appointments on condition that candidates agree that their appointments will be cancelled should the security clearances return any information that has not been declared. This then made it possible for the successful candidate to assume duties during the month of August 2021.

During the past five months we have been reporting no vacant positions within the department except for the three internship opportunities that were in the recruitment processes. The process as previously reported was expected to have been concluded by 30 June 2021, which unfortunately did not take place. The process was eventually concluded by the end of November 2021. Out of the three appointed candidates, two did not fully meet the minimum requirements as set by National Treasury, meaning only one internship opportunity is filled. This still therefore requires recruitment of two more qualifying young graduates to meet the required number of five.

4. Implementation of mSCOA

The municipality, like any other municipality in the country has been implementing mSCOA from 1 July 2017 as required. Following are some of the challenges that the implementation has posed to the municipality over the years:

a) Challenges Identified

i. Version Changes

On an annual basis, the mSCOA chart is reviewed to address implementation challenges and correct chart related errors. Towards this end, version 6.6 has been released.

Since the introduction of mSCOA, National Treasury has introduced a number of chart versions with the latest version referred to above expected to be used for the draft and final budgets for 2023 and corrections made to the draft budget as per the budget engagements that will be held with Provincial Treasury during the month of May 2022.

The version has introduced a number of improvements from the previous versions which are expected to pose new challenges to the way the municipality does business and records transactions. We, however continue to examine the new chart to understand the full extent of the changes and their anticipated impact thereof.

History has taught us that there does not seem to be any agreed upon plan on the side of the system vendors and Treasury themselves to ensure that the information gets transferred in a uniform manner as we find that some municipalities do not face the same challenges as others while others only realise when issues are being raised that they have similar challenges.

ii. IDP Budgeting

mSCOA requires that the IDP non-financial information be linked to the budget not only at the IDP and SDBIP level but also at the financial system level. As a way to force this, mSCOA has since required that all expenditures be linked to a strategic objective, project and specific ward in the municipal area including expenditure on personnel expenses.

iii. Production of in-year reports

All approved system vendors were required to have a functionality to produce all statutory reports to avoid municipalities having to prepare these manually. Munsoft was approved as one of the service providers on the strength that they indicated they use Caseware to produce these reports which the municipality also has access to. The utilisation of these two systems does however require some work and setting up to ensure they fully integrate, which was successfully addressed. Parts of this report have been prepared using the system even though there are parts that require manual population which is how the reporting templates are setup.

iv. Budget and reporting module functionality

The budget module of the system that the municipality uses has in the past been discovered to only work well with income and expenditure, other modules like balance sheet and cashflow budgeting still continue to produce aligning reports even though some principles are incorrect. This challenge seems however, to have been addressed from the adjustment budget processes and we continue to analyse the reasonability of the principles these modules are using to check consistency with the financial management standards.

Even though attempts are being made to ensure that all system vendors get their systems working as required when it comes to the balance sheet and cashflow budget, there is however consensus that the principles and information required to produce these are currently subject to discussions and revisions are required.

There are a number of trainings setup by both Treasury and system vendors on the balance sheet and cashflow budgeting which we have attended and will continue to attend as the municipality to ensure full compliance during the upcoming adjustments budget and all other subsequent budgets.

5. 2020/21 Audit Action Plan Formulation

The municipality submitted Annual Financial Statements to the Auditor General for audit on the 31st of August 2021 as required by the MFMA and the outcome was issued on the 1st of December 2021.

The municipality received and responded to the following:

- 36 Requests for information
- 10 Communications of audit findings
 - a) Areas of findings

Errors in the calculation of prior corrections on the cash flow statement,

Competency assessments not done for all employees during the recruitment process,

Doing business with companies linked to persons in the service of the state

Incorrect calculation of electricity distribution losses

Differences in the ageing of receivables

Statutory receivables not tying up

The overall audit outcome was confirmed to be an unqualified audit opinion with no material findings for the first time in the history of the municipality after sustaining an unqualified audit opinion for the past five years.

The municipality is in the process of developing an audit action plan to address issues raised above. The audit action plans will be presented to the municipal council for approval on the 27th of January 2022.

The implementation of the action plan will then be monitored and reported on, monthly.

6. Implementation of the Municipal Cost containment regulations

During the month of June 2019, the minister of finance approved Municipal Containment regulations effective from 1 July 2019. The regulations required municipalities to develop, adopt and implement policies as part of its budget related policies to support cost containment measures. These regulations were unfortunately approved after the municipal budget processes had been concluded which made it difficult for municipalities to develop these policies at such a short space of time. The council of Winnie Madikizela-Mandela Local Municipality developed and adopted a policy on cost containment that is now being implemented.

The municipality has since implemented the following measures in line with cost containment:

- No catering for all meetings taking less than 5 hours
- No catering for all meetings held by only staff members regardless of the duration of the meeting
- All accommodation arrangements set within the limits as communicated
- All sporting activities have been discontinued.

The implementation of these regulations has seen a reduction in the amounts spent on traveling and accommodation and catering expenses which we believe will assist the municipality to redirect these funds to other service delivery initiatives in the years to come including the first months of this current year. The table below indicate savings recorded for the mid-year in the targeted areas compared to the same period last year.

MID YEAR/QUARTER 2 COMPARISON

ITEM DESCRIPTION	2021	2022	SAVING
Travel and accommodation	843,910.86	2,046,761.24	1,202,850.38
Catering	956,387.50	1,598,943.30	642,555.80
Sponsorship (Sport development)	-		-
Sport Activities (SAIMSA)	-		-
Consulting fees	6,202,910.76	6,176,188.36	26,722.40
Total	8,003,209.12	9,821,892.90	1,818,683.78

The table shows an increase of over R1.2 million on travel and accommodation, over R642 thousand on catering compared to the same period last year which is mostly due to travel restriction as a result of Covid-19 that have been eased for the greater parts of the current year. The table also shows a slight decrease of over R26 thousand on consulting fees compared to the same time last year.

a. Supply and Delivery of Municipal Vehicles

As part of the cost containment regulations municipalities were directed to utilise the transversal contracts entered into and negotiated by National Treasury to procure municipal vehicles. According to the regulations, municipalities are only allowed to procure vehicles using any other means only if they can demonstrate that they will get the vehicles cheaper when using their own procurement processes. The municipality applied to participate in the transversal contract (RT-57 2019) for procurement of municipal vehicles with National Treasury and approval was granted.

The municipality gathered information on how the procurement must then take place through the Special Conditions of Contract. This meant that all advertisements for this procurement will now be cancelled and completely discontinued. The procurement process through the transversal contract requires the following:

- The municipality to identify the need
- Development specification
- Check the specification against published suppliers and specification by Treasury
- Identify the supplier that is rated higher by treasury on the list of suppliers
- Send the order to the highest ranked supplier first
- Allow three working days for the supplier to respond
- Move only to the second ranked supplier with the permission of the highest ranked supplier

The municipality successfully procured a refuse skip bean truck during the year. There is currently a request for procurement for procurement of a bakkie for the refuse section which we were hoping will be delivered by the 30th of June 2021, however all the suppliers could not deliver the vehicle due to shortage of stock for the type of vehicle. One of the suppliers tried to charge the municipality a price higher than that indicated on the price list which the municipality declined as it was not in line with the prescribes of the contract. The process will be reinitiated again after the adjustment budget processes of the municipality.

The is also a bakkie for electricity department that is being procured utilising the process which we hope will be delivered before the end of February 2022.

7. 2019/20 Audit Progress

The municipality prepared and submitted Annual Financial Statements for the year ended 30 June 2021 to the Auditor General of South Africa on 31 August 2021 as required.

Due to the extensions that were granted for last year's audits for both MFMA and PFMA as a result of the outbreak of Covid-19 and subsequent lockdown regulations, the office of the Auditor General could not conduct planning as per their usual schedule. This means that they will have to conduct their planning and execution at the same time whilst targeting the same due date of 30 November 2021. This will require a lot more effort in assisting the process than is normally required, they will be very strict on timeframes and have no tolerance for any type of delays.

The following milestones have been covered:

- Presentation of the engagement letter and signing by the MM
- Presentation of the audit strategy and planning report

By the end of November 2021, 36 RFIs had been issued and responded to.

10 communication of audit findings have been raised so far.

The audit process was then concluded and the audit report was signed by 01 December due to addition audit requirements by the National Office of the Auditor General for all municipalities in the Eastern Cape that were in the process of constructing a stadium, following the bad media publicity on the matter during the build up to November 2021.

8. Strategic Objectives

The municipality developed strategies for the next five years from which short-term operational plans and targets talking to at least a period of one financial year are developed and reviewed annually. This is done in the form of the Service Delivery and Budget Implementation Plan (SDBIP) which was approved by the mayor within 30 days after the adoption of the annual budget by the municipal council. The table below gives a summary of the SDBIP with the targets that the departments have been working to achieve on a quarterly basis. The table shows the municipality's performance for the period ended to ensure they are monitored and achieved at the end of the financial year:

DEPT/KPA	TOTAL NUMBER OF TARGETS	TARGETS REPORTED	TARGETS ACHIEVED	TARGETS NOT ACHIEVED	ACHIEVEMENT PERCENTAGE	COLOUR CODING FOR OVERALL PERFORMANCE
ENGINEERING SERVICES DEPARTMENT	23	23	11	12	48%	Red
COMMUNITY SERVICES DEPARTMENT	35	35	29	6	83%	Yellow
DEVELOPMENT PLANNING DEPARTMENT	29	29	19	10	66%	Red
CORPORATE SERVICES DEPARTMENT	22	22	17	5	77%	Yellow
BUDGET & TREASURY OFFICE	29	29	26	3	90%	Yellow
MUNICIPAL MANAGER'S OFFICE	33	33	25	8	76%	Yellow
OVERALL PERFORMANCE	171	171	127	44	74%	Yellow

101+%	Performing above the target
96-100%	No deviation in plans – targets achieved
67-95%	Minor deviation – targets not achieved
0-66%	Major deviation – targets not achieved

The table above paints a very bleak picture of the most unacceptable performance standards by any stretch of imagination for our service delivery department in the form of engineering services even though it is an improvement from the picture looked like in the previous year at the same time. A detailed report will be presented separately with the reasons and proposed remedial actions to remedy the situation.

9. In-year budget statement tables

a) Budget Statement Summary

EC443 Winnie Madikizela Mandela - Table C1 Monthly Budget Statement Summary - Q2 Second Quarter

Description R thousands	2020/21	Budget Year 2021/22

Debtors Age Analysis									
Total By Income Source	4,600	2,747	2,638	2,585	2,574	68,873	—	—	84,016
Creditors Age Analysis									
Total Creditors	26	—	—	—	—	—	—	—	26

The table above shows a summary of the municipality's financial performance for the period ended 31 December 2021. The first part of the table shows financial performance which gives information about whether the municipality made a loss or a surplus during the reporting period followed by a summary of the municipality's performance on its capital budget. This is then followed by the municipality's financial position, a summary of the cashflow recalculation and then debtors as well as creditors age analysis.

b) Financial Performance by functional classification

EC443 Winnie Madikizela Mandela - Table C2 Monthly Budget Statement - Financial Performance (functional classification) - Q2 Second Quarter

The above table shows the municipality's revenue per revenue source. This is in line with the services that municipalities are providing. An analysis of each revenue source follows below:

- **PROPERTY RATES:** The municipality being a local municipality levies property rates on all rateable properties within the Mbizana area in terms of the Municipal Property Rates Act No.6 of 2004. The categories of rate payers include government departments which own properties, like Public Works which are levied once at the beginning of the financial year which lead to the revenue generated for the month to be R15 million in the 1st month and a decrease to R561 thousand for the following months to the end 30 June 2022. The current revenue recognised on this stream may seem to be above the monthly target but it is important to note that this is only due to government properties levied only at the beginning of the financial year for the whole year.
- **ELECTRICITY REVENUE:** The municipality distributes electricity in the town area as per its distribution licence. This is one of the major sources of revenue for the municipality as households now depend on electricity for their day to day living. This is a trading service where the municipality gives electricity equivalent to the amount provided by the consumer. Municipalities are therefore expected to at least recover the cost of providing the service. The approval of tariffs by NERSA is set up such that the municipality can make some form of surpluses from sale of electricity so that it may be able to maintain the infrastructure used to render the service and defray

all other operating expenses related to the service provision. The municipality has generated over R2.6 million for the month and a year to date actual of R17.7 million. This is below the projection by about 8% (over R1.6 million) which may add up to R3.2 million by the end of the year if attempts to remedy the situation do not yield results. It is worth mentioning that the 8% report is a regression from the 6% reported in the previous month. Even though new bulk meters have been installed for identified large power users that we expect will begin to show results, there are however some disturbing observations that have been made by the professional service provider contracted by the municipality to install automated meter reading system. Some of the large power users in town that are owned by the different persons seem to have a way to lower the way in which our meters read consumption leading to less billing and more consumption from their side. The municipality has made some research and learnt that a solution might be installing a automated meter reading system that is able to identify when a meter changes its reading in real time. The installation process has assessments reports that have been shared with the municipality's Electricity Section with findings that also require action from the municipality to protect revenue losses.

- **Solid Waste Removal:** Collection and disposal of solid waste is one of the services that the municipality provides to the town area and a few sites outside of town including the Wild Coast Sun Casino. The municipality has implemented a new billing approach which ensures that all customers who individually generate waste are billed individually. The exercise was conducted by the refuse section and the billing database has significantly increased and showed us that there are customers we have been providing the service to at no cost at all. This has resulted in the revenue billed for the month to be over R366 thousand which is less than the projection by 5% which is a regression from the 4% reported in the previous month which will be monitored against performance of other periods to follow.
- **Interest on Investments:** The municipality invests surplus cash and unspent grants to generate interest that would be utilised to fund other municipal programmes, this interest includes interest on the municipality's positive balance in the municipality's main account. The table above shows that the municipality generated over R657 thousand worth of interest on investments with a year to date actual that is above the projection by 6% which is a regression from the 11% reported in the previous months. This is still less than the normal performance in the previous years at the same time. This underperformance may be due to interest rates cuts that have been implemented by the South African Reserve Bank since the outbreak of Covid-19. This may also be attributable to the

decrease in revenue collection since the outbreak of COVID-19 which has meant the municipality continues to spend without making any significant funds coming in.

- **Interest on outstanding debtors:** The municipality charges interest on debtors owing for more than 30 days at a rate of prime plus 2% as per the municipality's credit control and debt collection policy. This has yielded interest of R398 thousand for the period ended 31 December 2021 which is less than the amount projected for the period by 16%, a regression from the 17% reported last month. This requires intense debt collection initiatives. A higher interest generation means the municipality's debtors are more than what they were projected to be.
- **Fines:** The municipality has a traffic department which enforces traffic laws and the municipality's by-laws. Anyone found to have contravened these laws is charged a fine accordingly. These fines also include fines for electricity tempering. The municipality generate around R3 thousand for the month of December 2021. It is worth noting though that, this does not represent cash collected and measures should be put in place to ensure people pay their fines. Experience has taught us that people generally do not settle traffic fines and, in most cases when they do they do so at lower values than the initial revenue recognised. This is one of the areas where we were forced to adjust down in the previous year to ensure that we end up with realistic revenues.
- **Rental of facilities:** The municipality has properties that it rents out to other businesses and individuals from which it generates revenue. These include properties like the Boxer complex, Spar, Browns, Bargain and others. The revenue generated here also includes rental for billboards and advertising around the town area. The municipality has generated about R328 thousand for the month which has pushed the actual performance to a level above the projection by 24% which is a result of other revised contracts that have been concluded.
- **Licenses and permits:** The municipality has a fully functional testing station which has been in operation for the past three years. This has been one of the municipality's promising revenue stream since the completion of the testing station. The municipality only generated R130 thousand worth of revenue for the period. The municipality has collected below the projected collection by 28% which is a regression from 25% recorded in the previous month and the situation is expected to improve as the testing center begins operating fully and the lockdown restrictions are further eased.
- **Transfers and subsidies:** The municipality receives grants, both conditional and those without conditions. The report shows that an amount of over R97.3 million has been transferred to revenue for the period ended 31 December 2021 from the operating grants whose conditions have been met. This

has recorded a year to date performance of R221 million. This happens when the municipality has spent the grants according to the requirements of the funders or DORA. The biggest chunk of these transfers is equitable share that was received during the months of July and December 2021.

d) Debt Collection

The table below shows a 83% overall mid-year collection rate for the period ended 31 December 2021. However, we note a 79% collection on property rates which is an improvement from 57% last year, 86% collection rate on leasehold fees which is a regression from 151% last year, 79% on electricity which is an improvement from 64% last year and 80% on refuse removal for the period which is also an improvement from 58% last year. The table also shows that this is an improvement of 20% compared with the same period last year.

e) Debt collection services

The municipality contracted the services of a debt collector during the 2019/20 financial year with the aim to start debt collection services in the 2020/21 financial year. This unfortunately did not happen due to a number of reasons as follows:

- Covid-19 outbreak and the lockdown restrictions that affected business activities and therefore affecting people's affordability

- The need to do data cleansing and profiling debtors to start the process with
- The need to allow consumers to come make arrangements and take advantage of offered discounts which was open for three months from 1 April 2020 to 30 June 2020.

A decision was taken to use the 2020/21 financial year as the year to finalise data cleansing and profiling which the accounting officer approved an extension of scope for the appointed service provider to complete the exercise which was done successfully. The exercise pointed to a number of challenges including invalid ID numbers recorded for certain accounts and title deeds mixup in extension 2 that are barriers to the successful implementation of the project. It was then resolved that the process starts with collection from businesses while allowing the municipality an opportunity to finalise the correction of title deeds for other categories of customers. To date is the update below:

- 127 business accounts handed over
- 12 accounts closed with 5 of the closed accounts settled and 7 recalled by the municipality that included the Wild Coast Sun account that was to the value of R10 million
- 6 recalled accounts belonged to the government
- 5 accounts were settled
- R6.3 million has been collected to date

Challenges faced during the process are as follows:

- Queries not resolved on time with some taking the municipality up to three months to resolve
- Debtors making arrangements with municipal officials and then refuse to engage with the debt collector

The following is recommended to make the project a success:

- The municipality to set time frames for resolving queries
- All debtors to be referred to the debt collectors to avoid confusion in terms of payment arrangements made

f) Review of revenue enhancement strategy

The municipality developed and implemented a revenue enhancement strategy in 2014. The strategy was based on available information at the time to the municipality, however, a need to review the relevance of the strategy in 2020 was identified. This was based on a number of developments that have taken place in Bizana since the strategy was developed.

A service provider was contracted during the 2019/20 financial to review the strategy and develop an implementation plan for council approval. This was meant to be completed before the start of the year to allow implementation but Covid-19 delayed some of the processes as they require human interaction. Work has since began again at the start of 2020 and a draft strategy has undergone reviews by all departments affected by the recommendations to ensure accuracy and implementability.

A presentation of the draft strategy was made to the Budget and Treasury standing as a structure of council and to the Executive committee of the municipality as a recommendation from the standing committee. The report of the executive committee on the strategy was also presented in the council meeting held of the 7th of December 2020.

The municipality finalised the process of formulating the proposed structures to implement and monitor the implementation of the strategy and the first meeting of the structure was held as expected before the end August 2021.

g) Expenditure by Type

EC443 Winnie Madikizela Mandela - Table C4 Monthly Budget Statement - Financial Performance (revenue and expenditure) - Q2 Second Quarter

Description R thousands	Ref	2020/21	Budget Year 2021/22							Full Year Forecast

Depreciation & asset impairment		40,180	52,682	—	3,570	21,424	26,341	(4,917)	-19%	52,682
Finance charges		1	150	—	—	—	75	(75)	-100%	150
Bulk purchases - electricity		35,022	40,777	—	3,052	18,734	20,389	(1,655)	-8%	40,777
Inventory consumed		4,798	7,663	—	654	3,180	3,831	(652)	-17%	7,663
Contracted services		41,065	98,848	—	5,341	44,913	49,424	(4,510)	-9%	98,848
Transfers and subsidies		4,499	5,907	—	—	273	2,953	(2,680)	-91%	5,907
Other expenditure		38,313	65,042	—	4,226	19,503	32,521	(13,018)	-40%	65,042
Losses		43,425	—	—	—	—	—	—	—	—
Total Expenditure		342,313	433,529	—	28,211	174,266	216,765	(42,499)	-20%	433,529

The table above shows the municipality's expenses per type of expenditure. This is compared with the revenues generated per type to determine whether the municipality is operating at a loss or a surplus.

- Employee costs and Remuneration of councillors:** The municipality has remunerated employees who are remunerated as per the prevailing Bargaining Council agreements. The expenditure for the period ended 31 December 2021 reflects an amount of R9.2 million for employee costs and R2.1 million for the remuneration of councillors. The remuneration of councillors shows a 9% underspending compared to what is expected at the same period. Employee costs have continued to record a 14% saving that is always expected considering issues like, annual increment, annual and long-term bonuses, resignations, leave provisions and vacant positions.
- Bulk Purchases:** The municipality purchases electricity in bulk from Eskom for distribution to the town customers. This is the main input cost to the distribution of electricity. The table shows that the municipality spent about R3 million on electricity purchases for the period ended 31 December 2021 and a year to date actual of the same which is below the projected expenditure by 8%. This amount only relates to 20 days of November and 10 days of December as the billing by Eskom only takes place on the 10th of each month.
- Depreciation and asset impairment:** The depreciation run has been performed after the end of each quarter and recently monthly, resulting in the depreciation for November 2021 being R3.5 million as the asset register was still in the process of being reviewed to ensure that the assets are correctly accounted for in the annual financial statements. This has resulted in the depreciation recorded being below the projection for the month by about 19%.
- Contracted Services:** This relates to the municipality's general expenses that have been incurred during the month where only external service providers could be used to render the service or procure goods. This shows that the municipality incurred R5.3 million worth of expenditure

during the month. This is as a result of slow spending during the first months of each financial year which is always experienced and the national lockdown which has meant that less activity was recorded for the municipality and some events being cancelled or held virtually.

- **Other Expenditure:** This also shows a saving of about 40% which might be as a result of the slow spending during the first months of each financial year which is always experienced and the national lockdown which has meant that no activity was recorded for the municipality and some events being cancelled. This requires though that departments that are currently underspending be sensitised of the matter.

h) Revenue by Municipal Vote

EC443 Winnie Madikizela Mandela - Table C3 Monthly Budget Statement - Financial Performance (revenue and expenditure by municipal vote) - Q2 Second Quarter

Vote Description R thousands	Ref	2020/21		Budget Year 2021/22					
		Audited Outcome	Original Budget	Adjusted Budget	Monthly actual	YearTD actual	YearTD budget	YTD variance	YTD variance %
Revenue by Vote									
Vote 1 - Executive and Council	1	-	-	-	-	-	-	-	-
Vote 2 - Budget and Treasury		354,705	309,070	-	98,145	227,359	154,535	72,825	47.1%
Vote 3 - Corporate Services		405	293	-	11	166	147	19	13.2%
Vote 4 - Community Services		12,198	13,743	-	1,227	7,447	6,871	576	8.4%
Vote 5 - Development Planning		19,267	46,466	-	585	17,990	23,233	(5,243)	-22.6%
Vote 6 - Engineering Services		113,181	119,755	-	8,028	55,566	59,878	(4,312)	-7.2%
Total Revenue by Vote	2	499,756	489,328	-	107,995	308,529	244,664	63,865	26.1%
									489,236

The table above shows revenue generated per municipal vote as defined in s1 of the MFMA. The table above shows revenue generated per municipal vote as defined in s1 of the MFMA. The table shows that Engineering services has generated over R8 million for the month with Budget and Treasury showing generation of over R98.1 million which may be attributable to grants that have been received or spent more than the projected amounts and the interest on investments as well as Community services at over R1.2 million.

i) Expenditure by Municipal Vote

Surplus/(Deficit) attributable to municipality		157,443	55,799	—	79,785	134,263	27,899	—	55,799
Share of surplus/ (deficit) of associate		—	—	—	—	—	—	—	—
Surplus/ (Deficit) for the year		157,443	55,799	—	79,785	134,263	27,899	—	55,799

The municipality has so far recorded a surplus of over R134.2 million for the period ended 31 December 2021 with a surplus of R79 million for the month. This must be seen in the correct perspective as there has been receipts of the expected grants from the national purse. The municipality is still heavily reliant on grant funding and as such the surpluses still need to be seen in that perspective as they relate to expenditures that are still to be incurred. Measures still need to be put in place to move the municipality towards self-sustainability.

10. Capital programme performance

a) Capital expenditure by asset class and sub-class

The above tables indicate that the municipality spent R40.1 million for the month from its capital budget for the period ended 31 December 2021. Although this has much improved, it is still performance that cannot be encouraged, especially on the two major capital programmes being implemented by the municipality as it poses a number of risks for the institution including paying for work that has not been completed come the end of the year chasing targets and expenditure performance.

b) Capital Expenditure by municipal vote

EC443 Winnie Madikizela Mandela - Table C5 Monthly Budget Statement - Capital Expenditure (municipal vote, functional classification and funding) - Q2 Second Quarter

Funded by:										
National Government	6	67,776	86,399	-	3,583	25,043	43,199	(18,156)	-42%	86,399
Provincial Government		200						-		
Transfers recognised - capital		67,976	86,399	-	3,583	25,043	43,199	(18,156)	-42%	86,399
Borrowing		73,456	31,328	-	1,043	15,121	15,664	(543)	-3%	31,328
Total Capital Funding		141,432	117,727	-	4,626	40,164	58,863	(18,699)	-32%	117,727

The above table indicate that the municipality spent R40.1 million from its capital budget for the period ended 31 December 2021 which, although improved is still very discouraging considering that we have two major projects that have been allocated the bigger slice of the municipality's available resources that have not performed desirably during the past year.

c) Capital Projects funding

During the implementation of the current year budget there were a number of funding challenges identified for the current year projects where key projects were not allocated sufficient funding because they were anticipated to be completed by 30 June 2021 which did not happen and the budget had already been passed

for the year as required 30 days before the start of the year. The table below shows the projects that were affected and the shortfalls for each project that will need to be funded during the adjustment budget should council resolve to adjust its budget for the year:

Project Name	Original Budget Allocation	Transfer of Funds	Current Budget	Current Commitment	Current Year Expenditure	Remaining Commitment
Upgrade Taxi Rank Phase 2	0.00	2,300,000.00	2,300,000.00	0.00	2,281,010.66

Electrification of Zuziyaneni Village	1,307,268.00	0.00	1,307,268.00	0.00	0.00	
Electricity Bakkie	700,000.00	0.00	700,000.00	0.00	0.00	
Contacted Services: Electrification of Mabenguteni	8,145,237.00	-50,000.00	8,095,237.00	4,779,731.85	7,504,306.30	-2,724,574.45
Contracted services: Electrification of Mdatya	2,200,495.00	2,050,000.00	4,250,495.00	4,855,707.99	4,455,646.07	400,061.92
	31,703,000.00	0.00	31,703,000.00	9,635,439.84	26,639,710.67	-2,324,512.53

We recommend that council considers providing funding for these projects to ensure completion by the end of the year.

11. Supply chain management

The municipality has an established Supply Chain Management Unit in terms of the Municipal Finance Management Act. The section is placed within the Budget and Treasury to deal centrally with all issues that relate to procurement, demand management, logistics and disposals. The following is the indication of the activities that have occurred within the department for the period being reported on.

a. Acquisition management

To improve the system of acquisition management the following should be taken into considerations

- Goods and services must only be procured in accordance with authorized procurement processes.
- Procurement of goods and services, either through quotations or through a bidding process, must be within the threshold values as determined by National treasury and the municipality's supply chain management policy.

b. Handling of tenders during COVID-19

In attempt to continue delivering services to the communities decisions needed to be taken to ensure that the municipality proceeds with the procurement processes in line with the limitations placed by the regulations governing the movement of people and other things.

The municipality introduced virtual tender briefings using the Facebook live platform to share information with interested parties and provide clarities on tenders issued by the municipality. This was coupled with creation and introduction of email addresses where tenders can be submitted. This was done to address the following:

- Procurement to proceed despite the lockdown
- Protect the public and municipal staff from direct human interaction
- Limit movement in line with the lockdown
- Avoid documents which are known to be one of the carriers of COVID-19

To continue ensuring these processes are transparent the following has been introduced:

- After each live Facebook briefing a register is generated of all those who interacted with the presentation as instructed and posted on the municipal website so that all interested parties know who is considered to have fully complied

- Once the tender closing time passes, a register indicating the name of the company, tender amount, email address, date and time is prepared and posted on the municipal website for all bidders to know if their tenders will be considered
- All tenders are evaluated in electronic versions
- The recommended bidders are then requested to make a submission of the hard copies of their submission (originals)
- Only the hard copy of the winning bidder is then filed which also addresses issues with filing space and safety of the documents.

c. Procurement requests below R2000.00

S13.2. (b)(1) Supply Chain Management policy states that 01 written quotation will be obtain for any procurement of transaction below an amount of R2000 including vat.

d) Deviations

The Mbizana community was not spared in the road fatalities that took place during the festive season. The Tobo family from ward 7 lost 4 family members who were traveling home from Cape Town and the Tshezi family from ward 13 who also lost 4 family members in an accident that was in Msarhweni on the 24th of December 2021. The office of the Mayor received a request to assist these two families to bury their loved ones. The approval was for groceries only on the other family and groceries, tent, chairs and a toilet on the other. This happened during the recess period and the items were required at very short notice. It was impossible to obtain the required quotations and the only received quotations were approved as sufficient because they were also within the approved limits by the accounting officer for the municipality to assist up to. Below are the details of the transactions:

NO	COMPANY APPROVED	AMOUNT	TRANSACTION DATE	REASON	DEPARTMENT
1	NDIZAN@YOLO ENTERPRISE	TRADING R 5 580.00	30 DECEMBER 2021	EMERGENCY	OFFICE OF THE MUNICIPAL MANAGER
2	THE MIDDLE MAN ENTERPRISE	TRADING R 15 000.00	30 DECEMBER 2021	EMERGENCY	OFFICE OF THE MUNICIPAL MANAGER

13. Database rotation

The following table indicates the service providers that have been utilised during the six months ended 31 December 2021. This is in keeping in line with demonstrating that we are making strides in ensuring that there is rotation of service providers and no single provider is preferred.

PART 2 – SUPPORTING DOCUMENTATION

1. The impact of COVID-19 to the municipality

The President of South Africa declared a nationwide lockdown, where all citizens, except those that form part of essential services, were ordered to stay home for a period of 21 days. Those working in essential services, as defined in the latter announcement, were exempted from the nationwide lockdown declaration. The nationwide lockdown commenced at midnight on Thursday, 26 March 2020. This was eventually extended to the end of April 2020. The president then announced that the country will continue being on a risk adjusted lockdown with level 4 alert expected to take until the end of May 2020. This announcement will broadly affect how municipalities and municipal entities undertake their financial management responsibilities for the remainder of the 2019/20 financial year in terms of the MFMA and more imminently the 2020/21 MTREF budget preparations process.

As a result, the Minister of Finance issued a conditional Exemption Notice in terms of section 177(1)(b) of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA) on 30 March 2020 to facilitate and enable the performance of legislative responsibilities by municipalities and municipal entities during the national state of disaster. Below are some of the areas that have been greatly affected and will continue to be affected as long COVID-19 is still within our shores.

a. Financial Performance

The municipality generates its revenues from a number of sources including provision of services. With the lockdown in full force, it meant that the municipality will not be generating any revenues from some services. The most affected areas are as follows:

i. Refuse removal

Due to the number of businesses that were closed during the lockdown, it meant the municipality was not providing any service to those as they did not generate any refuse. This required the municipality to exempt those from paying during the period of the lockdown.

ii. Electricity distribution

The municipality provides electricity in the town area with businesses forming the bigger part of the municipality's revenue generation capacity. With most of these businesses closed during the hard lockdown, it meant less electricity was consumed and therefore less revenue generated.

iii. Licences and permits

The municipality as indicated earlier in the report runs a drivers license testing center which was unfortunately not operating during the lockdown and sometimes continues not operating for the duration required should any positive case be detected. This means loss of income to the municipality that has continued to show its effects in the current financial year.

2. Audit progress

The municipality prepared and submitted Annual Financial Statements for the year ended 30 June 2021 to the Auditor General of South Africa on 31 August 2021 as required.

Due to the extensions that were granted for last year's audits for both MFMA and PFMA as a result of the outbreak of Covid-19 and subsequent lockdown regulations, the office of the Auditor General could not conduct planning as per their usual schedule. This means that they will have to conduct their planning and execution at the same time whilst targeting the same due date of 30 November 2021. This will require a lot more effort in assisting the process than is normally required, they will be very strict on timeframes and have no tolerance for any type of delays.

The following milestones have been covered:

- Presentation of the engagement letter and signing by the MM
- Presentation of the audit strategy and planning report

By the end of November 2021, 36 RFIs had been issued and responded to. 10 communication of audit findings have been raised so far.

The audit process was then concluded and the audit report was signed by 01 December due to addition audit requirements by the National Office of the Auditor General for all municipalities in the Eastern Cape that were in the process of constructing a stadium, following the bad media publicity on the matter during the build up to November 2021.

3. Implementation of the Finance Management Internship Programme

The municipality implements the Finance Management Internship from funded through the Financial Management Grant as one of the conditions indicated in the grant framework. The program is implemented in line with the guidelines that govern the following:

-
- a) Number of interns, which is 5 at all times
 - b) The minimum requirements for recruitment of the interns
 - c) The recruitment process to be followed

- d) The duration of the programme
- e) The remuneration structure and limits
- f) The reporting requirements
- g) The structure of the programme

The municipality currently has one intern enrolled in the programme with the four currently being recruited.

We have noted with concern that the municipality has not been following the guidelines in full when these are being recruited which may result in funding being withheld should this be picked up by the funder. Some of the candidates that get shortlisted do not meet the minimum requirements and no proscribed process is followed as prescribed when the municipality decides not to follow the guidelines.

A meeting has been held with Corporate Services to assist each other in understanding and correctly implementing the programme.

The municipality has since enrolled two financial management interns on the programme who will start attending classes during the month of June 2021.

The municipality is also in the process of recruiting two additional Financial Management Interns to make the required number of 5. This was anticipated to be concluded by 30 June 2021 but due to unconfirmed reasons the process has not been concluded. Shortlisting and interviews were then concluded during the month of November with the commencement of successful candidates being in December 2021. During this period, we identified that two of the three candidates did not meet the minimum requirements as stipulated by the funder of the programme and required approval from the funder before finalisation of the process. This is a matter that the Chief Financial Officer brought to the attention of the Senior Manager: Corporate Services and the Manager: Human Resources before the process was finalised. On commencement of the successful candidates there was no approval granted by the funder to proceed with the appointments and therefore the assumptions of duties could not be signed by the Chief Financial Officer for the two candidates. The matter was brought to the attention of the Senior Manager: Corporate Services again to ensure a proper process is followed or remedial action taken to avoid the funding being stopped and therefore disadvantaging future young graduates and also incurring irregular expenditure.

4. Debtors' analysis

Summary of all Debtors

Other	2500	(0)	(0)	—	(0)	—	(0)	—	—	—	(0)	(0)	—
Total By Customer Group		2600	4,600	2,747	2,638	2,585	2,574	68,873	—	—	84,016	74,032	—

The table above shows municipal debtors for the month of December 2021 per income source and per customer group. It should be noted that the municipality's leading source of income when it comes to debtors is property rate followed by interest on arrears which is an indication that we have more debtors that have stayed for longer periods outstanding. It should also be noted that the municipality's majority of debtors are more than 150 days old. This could prompt a write-off at some point if these are not collected as they overstate the municipality's balance sheet.

The biggest category of debtors is government and they owe the municipality long outstanding amounts followed by households. This is due to some accounts that are being disputed by consumers and government schools that public works says are not surveyed and therefore they cannot pay according to their processes until they have been surveyed.

5. Creditors' analysis

EC443 Winnie Madikizela Mandela - Supporting Table SC4 Monthly Budget Statement - aged creditors - Q2 Second Quarter

Description R thousands	NT Code	Budget Year 2021/22									Prior year totals for chart (same period)
		0 - 30 Days	31 - 60 Days	61 - 90 Days	91 - 120 Days	121 - 150 Days	151 - 180 Days	181 Days - 1 Year	Over 1 Year	Total	
Creditors Age Analysis By Customer Type											
Bulk Electricity	0100									-	
Bulk Water	0200									-

Total capital expenditure of Approved Roll-overs		-	-	-	-	
TOTAL EXPENDITURE OF APPROVED ROLL-OVERS		-	-	-	-	

The table above shows spending progress on the approved rollovers for the year being implemented.

d) Compliance with DORA requirements

The municipality has the following main conditional grants allocated to it for the year:

- **Municipal Infrastructure Grant:** The grant is mainly for constructions of municipal infrastructure such as Access roads, Community facilities (Halls, Sport fields, ECDCs and more). 5% of the allocation is allocated for the operations of the Project management unit. The grant is disbursed in tranches informed by the projections submitted by the municipality before the start of the financial year. This was normally disbursed in three trenches a year 60% in July, 20% in December and 20% in March. From the 2020/21 financial year a new system introduced where 30% is transferred in July and requiring that at least 60% of that must be spent by the end of September to qualify for the next trench. It is with great disappointment to report that the municipality did not qualify for the send trench until the end of November this year because the amount spent did not meet the minimum spending requirements. The fund also has a spending requirement of 40% of the allocation by December to qualify for consideration of additional funds during the adjustments period with anything less than that qualifying for a reduction in the amount allocated to other municipalities that have spent as required. The table above shows that the municipality did not make the 40% requirements and will then be subjected to a possible reduction of the allocation which will bring more pressure to the limited resources to complete the current year projects.
- **Integrated National Electrification Program:** The grant is mainly used to supplement the work being done by Eskom to address electrification backlogs in rural communities. The grant's conditions do not include any operating portion like the Municipal Infrastructure grant even though they are both capital in nature. The table above shows that the municipality has already spent over 90% of the allocation for the year. This might require the municipality to use its own funds to complete the projects being implemented if no additional funding is allocated to the municipality during the mid-term budget adjustment.
- **Municipal Finance Management Grant:** The grant was introduced and is allocated to assist municipalities build and sustain financial management capacity. The grant is mainly for Budget and Treasury operations and focuses on the following areas:
 - Recruitment and training of five tertiary institution graduates within the accounting field including audit and risk management at a time
 - Strengthen capacity and upskill officials in the Budget and Treasury Office (BTO), Internal Audit and Audit Committees
 - Acquisition, upgrade and maintenance of financial management systems to produce multi- year budgets, in-year reports, Service Delivery and Budget

Implementation Plans, Annual Financial Statements, annual reports and automated financial management practices including mSCOA

- Support the training of municipal officials in financial management towards attaining the minimum competencies
- Support the preparation and timely submission of quality annual financial statements for audits. Technical support to municipalities must include the transfer of skills to municipal officials
- Support implementation of corrective actions to address root causes/audit findings in municipalities
- Implementation of financial management reforms and address shortcomings identified in the Financial Management Capability Maturity Model (FMCMM) Assessment report
- Support the implementation of the financial misconduct regulations and promote consequence management to reduce UIF&W incurred by municipalities
- Support to strengthen financial governance and oversight, as well as functioning of Municipal Public Accounts Committees
- Support the training of municipal officials that are members of the BID committees

10. Compliance with legislation and key deadlines

The municipality has complied with legislation and key deadlines relating to the implementation of the IDP and the budget. Below is a summary of the key milestones that the municipality has ensured compliance with:

- The SDBIP was approved within 30 days from the approval of the budget
- The schedule of key deadlines or IDP and budget process plan was approved at least ten months before the start of the budget year
- All monthly reports were prepared and submitted within 10 working days of the end of each month as required by s71 of the MFMA
- All quarterly reports were prepared and submitted within 30 days of the end of the quarter
- Annual financial statements were prepared and submitted to the AG for auditing by 31 August 2021.
- The audit process commenced before the end of September and completed by 30 November 2021

11. Municipal Manager's quality certification

Quality Certificate

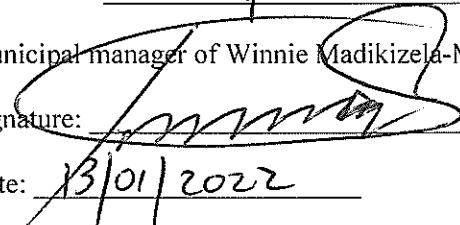

I, Luvuyo Mahlaka, the municipal manager of Winnie Madikizela-Mandela Local Municipality, hereby certify that –

- Quarterly budget statement

for the quarter ended 31 December 2021 has been prepared in accordance with the Municipal Finance Management Act and Regulations made under that Act.

Print name: Luvuyo Mahlaka

Municipal manager of Winnie Madikizela-Mandela Local Municipality (EC443)

Signature: 

Date: 13/01/2022
